Our school initiatives are showing substantial progress toward our targets

After reviewing our 2016 Investing for Success agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our initiatives as needed to ensure every student succeeds.

Initiatives implemented include:

- Developing staff capability to teach explicit strategies for problem solving
- Teaching mathematical problem solving to students using the explicit teaching lesson structure
- Including the teaching and practise of number facts four times a week as part of rotational activities.
- Employing a teacher aide to assist with rotations and small group mathematical lessons ($4965.00)
